Notes on the Hugh Ernest MacDermot Fonds

In April 1998, two boxes containing H.E. MacDermot papers were found in the cataloguing room. We then decided to procede to a merge with the personal papers collection that we already had in our possession under the accession number 546. We set up a classification plan and did a preliminary treatment.

*** There were several papers related to the Board of Curators of the Osler Library that we have not kept: minutes of the meeting of the Board of Curators and notices of a meeting. We have not kept the minutes of the meeting because they were about meetings to which MacDermot was absent (so, it is not a testimony of his activities). The information can be easily found in the Osler Library Fonds.
